Hon. A. G. MacKay Rimbey Pioneer Office Is Dead

Minister of Municipal Affairs and Health in Provincial Government

Hon. A. G. MacKay, minister of municipal affairs and of the health department in the provincial government died on Sunday, April 25, in the General hospital. He was taken ill of bronchitis shortly after the close of the session. Pneumonia developed and he was taken to the hospital five days ago. The case seemed to be progressing favorably until a very short time before death. Heart failure was the immediate cause of death. Dr. Williamson was in attendance, assisted by Dr. Harrison and Dr. Conn was called in consultation in the later stages of the case.

Mr. MacKay was possessed of a very robust constitution, but it will be recalled that some years ago he suffered from a very severe attack of pneumonia. No doubt the attack weakened the resistance of his heart on this occasion.

Murder Seven With Hatchet and Shotgun

Bismark, N.D., April 25.—The bodies of Jacob Wolff, his wife, their four children and a farm hand, were found by a neighbor on Saturday on the Wolf farm near Turtle Lake, north of here. Numerous empty shotgun shells lay scattered about the place, indicating the seven had been shot but mystery surrounds the affair.

The only member of the family who escaped being murdered was the youngest child, a girl just past her first birthday. The little tot was sitting on the floor on the first floor and was almost famished when found, indicating, the authorities said, that the murders were committed at least 24 hours before. At the coroner's inquest, which began this morning, it was brought out that some of those killed were murdered with a hatchet and others shot. Wolff and one of two daughters, whose bodies were found in the barn, apparently had been shot. The others it is believed were attacked with a hatchet and their bodies thrown into the cellar.

John Brukman, a farmer, testified he had seen two suspicious looking men walking rapidly away from the direction of the Wolf farm shortly after noon Thursday. Wolff was considered well-to-do and his property estimated to be worth between \$25,000 and \$30,000.

THE LATE CHAS. CRANDALL

The death took place of Charles Crandall at his place near Clive, on Thursday, April 22nd after an attack of flu, pneumonia supervening.

Deceased, who was 33 years of age, was a well-known farmer in our community, and his death is regretted by many friends. Having sold his place in the Bismark district, Mr. Crandall had acquired a section near Clive, and had only moved down about a week ago. He had had a strenuous time, and paid little heed to what was considered a cold, and it was only a day or two after taking to bed that the end came.

He was a hard working industrious farmer, was doing well, and his prospects were of the best. Besides Mrs. Crandall he leaves six children, his parents, living in Washington, four brothers and four sisters—Marcus and Jessie being the only two residing in this district. Marcus has been indefatigable looking after his late brother's affairs.

The funeral took place on Saturday from the Union Church, Ponoka, and was largely attended.

Union Church, Ponoka, Sunday, May 2nd—11 a.m., worship and Sunday school. An earnest invitation is given to all to join the Sunday school. Parents come with your children. Classes for all ages. 7:30 p.m.—The pastor will preach. Sacrament of the Lord's Supper at the close of the service.

Meeting for prayer and Bible study in the Union Church Wednesday, May 5th, at 8 o'clock. You are welcome.

Strictly Cash And Better Service

ON the First of April we decided to conduct our Garage Business on a STRICTLY CASH BASIS. In order to make this plan a success, and be fair to everybody dealing with us, we had to make it Spot Cash with no exceptions.

Each year we endeavor to be of more Service to our patrons. The Cash Basis will assist in beating the high costs which prevail, enable us to carry better stocks, and pass the saving on to you by giving Better Service without increased cost.

We ask you to co-operate with us and feel sure it will benefit all.

NOTES
OF
TOWN AND
DISTRICT.

Local News.

Mrs William Ratledge, of Washington, is on a visit to her son, J. J. Fox, and other friends.

Misses W. B. Story and Etta O'Brien were Edmonton visitors the weekend.

Mrs M. F. Fleming has gone on a short visit to the old home in the States.

Mr and Mrs A. E. Fritz returned from Ontario last week, having spent the winter there.

H. H. Cox was in town for a day or two last week, having returned from a visit to the coast.

Ponoka is being honored with another doctor, in the person of Dr. S. K. McGregor, who has opened an office in the Reid Block on Donald Avenue.

Mr and Mrs Geo. Forsyth left for British Columbia on Friday, and if they find a suitable location, will make their home there.

W. H. Smith left on Wednesday for Ontario, where he will make a lengthy visit. It is to be hoped the change will improve his health.

Mrs Nell and family left on a visit to the old home in Prince Edward Island on Tuesday. She expects to be gone for the summer.

B. H. Dye, of Home Glen, visiting with friends in our midst. The squire of Sleepy Hollow is always assured of a welcome when he happens along this way.

FARNUM.—On Tuesday, April 27th, to Mr and Mrs A. L. Farnum a daughter.

We do not appear to be much worse off from a weather point of view than our friends across the line. W. L. Steele had a letter the other day from his brother in southern Nebraska, stating that the weather was very severe. A heavy snow storm in the middle of the month, and the snow piled up three feet in his garden. Little or no gardening has been done.

Improvement in the weather is lamentably slow, and the farmers are anxious, more especially in regard to seeding wheat. The season is fully three weeks behind that of last year, and besides there is little plowing done, as there is sure to be a curtailment in the acreage under crop. It depends upon the coming summer and fall a good deal, as it will be remembered that wheat was sown after the severe snow storm last May, and turned out a fairly crop.

A meeting of the Ponoka Curling Club Association was held last week. The secretary gave in a very favorable report on the season's workings, and the building is well out of debt. That curling has taken such a hold in town, as many farmers anxious to enjoy the game, it is expected that the curling will have to be enlarged and another sheet of ice added by next season.

See me before having your apartment.—R. M. GEMAN, Ponoka.

Dr. Mecklenburg, slight accident, will be in Ponoka, Monday, May 10th.

Not in years have our roads been in a worse state, and to haul a load over them is practically an impossibility. If any class of men deserves sympathy it is our mail carriers. They are curiously having a hard time on their long trips, but are doing their best.

F. W. Canfield was up from Montana on a short business visit this week. He is looking as well and hearty as ever, and of course had a handy visit with old acquaintances. The three past years were very disappointing in his part of the country, absolutely nothing being raised. This season is much more favorable, there being an abundance of moisture so far.

With the curling rink proving such a success, financially and otherwise, there should be something doing in the way of providing a skating rink for the young folks. Of course what is everybody's business is nobody's business, but all the same parents and the citizens as a whole should be interested in the welfare of the youth of the town. Such a place for recreation would do much to solve this Chinook nuisance, etc.

A concert and box supper will be given at the Wood River Hall on May 7th by the Climax school. Drills, music, glee and play. Don't miss it.

J. H. McArthur has just about finished the paperhanging and decorating of T. J. West's residence. Any work entrusted to him will have his personal attention. Phone 81 Lacombe, or 61 Ponoka.

A meeting, for the purpose of organizing the baseball team, will be held in Empress Theatre, Monday, May 3rd, at 8:30 p.m. All interested in good sport are requested to attend.

Batch of keys lost in town. Finder please leave them at Herald Office.

We are opening another night for pictures commencing May 13 when we are showing Fox Features. There will be shows at the regular prices, 15c and 25c, theatre box extra.

E. G. HEADLEY.

On the evening of May 21st an eloquent contest will be held at the Baptist Church. The young ladies taking part are the Misses Florence and Lorna Harris, Olive Wessler, Martha and George Matterson, Vivian Peterson and Vivian Headley. Full particulars later.

JAMIESON-AUTEN

At McDougall premises, Edmonton, on Tuesday, April 26th, the marriage of Nellie Alice Auten, of Ponoka, and William Gordon Jamieson, of Carleton Place, was solemnized, R. R. Lorne McTavish officiating.

CARD OF THANKS

Mr and Mrs O. F. Massey desire to thank all neighbors and friends who so kindly assisted them in the loss they sustained through fire. The assistance was much appreciated.

Outlaw Strikers Still Refuse to Return to Work

Several thousand strikers, at a mass meeting, refused to take action to end the unauthorised walk-out now in its fourth week in the Chicago terminal district.

The meeting called by John Gorman, president of the outcast Chicago Yardmen's Association, and Harold Reading, head of the United Engineers' Association, "to clear up the entire situation," adjourned 45 minutes after being convened with no progress made.

Representatives of the Railroad General Managers' Association and agents of the government ignored the invitations, and the railroad men announced that they would enter into no negotiations with the "insurgents." The railroads announced today that traffic was 85 percent normal.

The Baltimore & Ohio Railroad announced that strikers who did not return to work would lose seniority rights.

Approximately 1,500 strikers from the Illinois terminals of the St. Louis district met in East St. Louis and voted to remain out. The vote was unanimous.

Miners Riot at Butte

Fortteen I.W.W.'s and One Policeman Were Wounded

Butte, Mont.—Fortteen men, believed to be Industrial Workers of the World strike pickets, and one policeman, are in local hospital recovering from gunshot wounds sustained in a battle on Anaconda road, near the Newmont mine. Police officers believe two of the alleged Industrial Workers will not recover.

Police are searching for three other men said to have been wounded separately. Striking miners are massed in Finland hall and the street in front of the building. Feeling runs high. Police reinforcements have been called out.

Deporting Sinn Feiners

Fifteen Removed From Belfast and a Large Number From Queenstown in Destroyers

Belfast.—The removal of fifteen Sinn Féin prisoners from Queenstown, a large number from Queenstown on three destroyers leads to the belief that the authorities are planning to deport the Sinn Féin prisoners from Ireland.

The house of a merchant named Stewart was destroyed by fire in County Down. In Linlithgow, the Theatre Royal was attacked last night, and a dozen armed men rushed the officers and held in the theatre, abstracting the receipts of the day.

Loss Owing to Strikes

London.—Thomas J. MacKinnon, minister of labor, told the house of commons that the strikes and lock-outs reported to the ministry of labor during 1919 amounted to \$2,500,000. The aggregate duration of the days was 34,480,000 working days, and the loss on the basis of individual loss of time.

Chile to Buy British Ships

Santiago, Chile.—Negotiations between Chile and Great Britain for the purchase of warships by the former country are nearing completion. Great Britain has offered a dreadnaught, 3 first class destroyers and an auxiliary ship to which is considered here as an exceedingly low price. Chile is expected to make a quick decision.

Has no Information

Ottawa.—Replying to a question raised some days ago as to whether the Canadian government in 1910, 1911 and 1912 was offered gun patents which were afterwards sold to the German government by D. L. Hennick, of Logan, Ont., H. A. L. Smith stated that the government had no information.

Supreme Council To Deal With The German Problem

Paris.—The San Remo correspondence of Mainz says that the German problem has been referred to the Supreme Council of the League of Nations.

Paris.—The San Remo correspondence of Mainz says that the German problem has been referred to the Supreme Council of the League of Nations. The German problem has been referred to the Supreme Council of the League of Nations. The German problem has been referred to the Supreme Council of the League of Nations.

However, after the correspondence of Mainz, the German problem has been referred to the Supreme Council of the League of Nations.

Royal Train Held Up By Armed Men

Bandits Attacked Queen Victoria and Her Brother

Seville, Spain.—Bandits attacked a train on which Queen Victoria and her brother, the Marquis of Carisbrook were travelling from Madrid to Seville. The robbers made an unsuccessful attempt to carry off the royal plate, which the queen was taking with her. The robbers, who were well armed, opened a regular fusillade from the train, and one of them was killed. The bandits escaped in a motor-car, leaving no clue to their identity.

Bridges Damaged Owing to Floods

Coal Stores in Calgary Are Running Low

Calgary.—From information secured from some of the coal operators in the Drumheller valley served by the Canadian Northern Railway, it will be a month before the bridges can be repaired sufficiently for the movement of traffic. It is stated that there are fifty-five bridges in a distance of twenty miles, and that fifteen of them are in a damaged condition owing to floods. In some cases the bridges are submerged to a depth of more than four feet of water. Coal stores in Calgary are running pretty low, as the bulk of the coal now here comes from Drumheller. The principal supplies are now coming from the Edmonton district.

For Unity of Empire

King Sends Message to St. George's Society of New York Hoping For Peace of the World

New York.—A message from King George, praying for world peace, was read at the annual dinner of the St. George's Society of New York at the Waldorf-Astoria. There were 480 members and guests in attendance, some of the guests having come from Canada especially for the occasion.

The King's message, sent through his private secretary, said: "The King sincerely thanks the members of the St. George's Society for their loyal greetings and good wishes, which His Majesty much appreciated. The King joined with them in praying for peace among the nations of the world, and a spirit of unity within our empire."

Germans Would Increase Army

Want to be Allowed to Retain All Officers and Sergeants

Paris.—Germany has asked the international conference at San Remo to increase from 100,000 to 200,000 men the standing army provided for Germany by the terms of the Treaty of Versailles.

The request was contained in a note handed to the French foreign office last evening with the demand that it be sent to the supreme council at San Remo.

The note set forth that an increased force was necessary for the maintenance of order in the interior and that, fundamentally, the army would not accept an order for its dissolution.

The note further requests that Germany be allowed to retain the entire general and staff officers, which meant the entire framework of the active army.

The note further requests that Germany be allowed to retain the entire framework of the active army. The note further requests that Germany be allowed to retain the entire framework of the active army.

Universal Shortage

Dr. Robertson Tells Committee Of Abnormal World Demand

Ottawa.—In an address before the parliamentary committee on agriculture and colonization, Dr. J. W. Robertson, said it would take at least two big crops to catch up to anything like normal supplies of breadstuffs.

Dr. Robertson went on to state that the situation was not a temporary one, but a permanent one, and that the government must take steps to meet the situation.

Exhibition Munitions Are Guaranteed

Question of Compensation for Man Killed At Party Sound is Under Consideration

Ottawa.—The Government has a guarantee that all active munitions returned from overseas are properly examined and guaranteed to be harmless before being used for exhibition purposes. This information was given to James Arthur, of Party Sound, one of the house of commons the other day.

Mr. Arthur asked whether a claim had been made for compensation for the death of Mr. Allen, who was killed at Party Sound last fall by the explosion of a trench mortar supposed to be harmless. He was told that such a claim had been made and that the question was being considered.

For the Former Crown Prince

Amsterdam.—Negotiations with the Reformed Church at Wieringen for the purchase of a house for the former Crown Prince of Germany, have been begun by the Dutch government, according to a local press report.

The Dutch government, according to a local press report, has begun negotiations with the Reformed Church at Wieringen for the purchase of a house for the former Crown Prince of Germany.

Great Britain Helps Argentine

Buenos Ayres.—La Razón, commenting on the fact that the British government is lending Argentina \$50,000,000 to pay off a loan of the same amount by New York banks, says the latter had refused to renew it.

The British government is lending Argentina \$50,000,000 to pay off a loan of the same amount by New York banks, says the latter had refused to renew it.

Good From U.S. Must be Prepaid

Montreal.—Notices have been sent by all United States railways regarding goods to be shipped on and after May 1st to the effect that goods must be prepaid in U.S. currency.

W. N. U. 1213

Caillaux Escapes Charge Of Death Penalty

Charge of High Treason Against Former French Premier Was Rejected

Paris.—Joseph Caillaux, former premier of France was found guilty of having had correspondence with the enemy, by the high court of the senate. The vote was 15 to 9.

The charges of high treason and of intelligence with the enemy were eliminated by a vote of 218 to 91. This eliminated the possibility of the death penalty being inflicted. The court then took up the charge of correspondence or commerce with the enemy. Conviction on this count might entail imprisonment in a fortress for not more than five years or not less than one year or banishment.

The senators, upon taking over the case for decision, proceeded with the trial, a great part of them expressing their view that a verdict should be rendered, as the result of the discussion being on the irreconcilable position of two groups, one group, it appears, have insisted that the court should convict the defendant of high treason, while the other group was equally determined upon unconditional acquittal of the accused.

Amundsen in Siberia

Last Reported in August When Ship Was Drifting

Nome, Alaska.—A wireless flash from Anadir, Siberia, announces the presence there of Roald Amundsen, the explorer, the details and manner of his return have not yet been reported.

The longest Roald Amundsen was reported to be drifting in his ice-laden schooner, Maud, somewhere north of western Siberia. A message from Anadir suggested the explorer may have reached that point with a vessel.

British Labor Party Depart for Russia

Decline Responsibility for Newspaper Correspondents Who Intend To Go

London.—The delegation of the British Labor Party which will go to Russia to investigate the general situation there will be composed of Messrs. Philip Snowden, Ben Turner, Robt. Williams and Tom Shaw. Williams, who is regarded as the most radical member of the delegation, is long advocated direct action. He was a leading figure in the activities of the triple alliance—the railway men, the strikers and transport workers—during the railway strike and the recent threatened miners' walkout, when the most radical factor was whether Williams, as head of the transport workers, would bring them into the controversy.

The laborites decline to assume responsibility for the accompanying newspaper correspondents, but it is stated that representatives of some of the London papers are planning to start and take chances of being stopped from entering Russia.

The longest Roald Amundsen was reported to be drifting in his ice-laden schooner, Maud, somewhere north of western Siberia. A message from Anadir suggested the explorer may have reached that point with a vessel.

League Decides That Armenia Will Be Free

San Remo.—Armenia is to be created an independent state. This decision has been reached by the supreme council, because neither the United States nor any other power was willing to accept a mandate over the country.

U.S. and Britain Would Trade With Russia

Sir Auckland Geddes Declares Progress Is Being Made

Washington.—Negotiations between the State Department and the British foreign office, concerning the proposed re-opening of trade relations with Russia, are proceeding and progress is being made cordially. Sir Auckland Geddes, the new British ambassador made this announcement.

The question of the recognition of the present government of Russia is entirely apart from these conferences, it was said.

It is the purpose of Britain and America to arrive at an agreement as to means of expanding the trade already lowered, that should authorize an international loan guaranteed by the council.

It was pointed out that the new treaty would not be burdened with a large debt to begin with and the council was also requested to eject the Turkish forces from the borders of the new state. These proposals have not been accepted by the council.

It is understood that if the league of nations is created, it will have money it might have arranged with neutral governments to exercise the mandate under supervision of the league. Among the neutral powers mentioned are Canada especially, and if Canada would not accept, the United States might be asked.

The council leaves Smyrna under the suzerainty of Turkey, but places the city and province under the administration of Greece.

Canadian Missionary Killed

Dr. Menzies of Toronto, Slain While Defending Women in China

Vancouver.—A serious situation has been created in Honan, China, as a result of the murder of Dr. James Menzies, M.D., C.M., and Chao Tsi, the military governor, has been severely censured by the Pekin authorities for his inability to protect foreigners' lives and property. This information has just been received by the World Missionary Alliance.

Dr. Menzies came from Toronto, where his wife is now residing, and for more than 20 years was a missionary in China. He expired shortly after being wounded, when defending some women missionaries against robbers.

THE HERALD.

Published Weekly, Alberta, 1920

Morningside

Sunday, May 9th, has been set apart as "Mothers' Day" and this day combined. Every person in the district is invited to attend this service. The mothers are especially invited to come, and bring their children in order to get the Sunday school started. The little ones are taking a special part in the singing. Service at 3 o'clock.

Mr and Mrs Steffen have purchased the Driggs property and moved into town. We welcome this highly esteemed couple into our midst.

Mrs Sutherland and Elizabeth have been recent visitors in Didsbury and Calgary.

Mr and Mrs Axel Driggs, of Rimbey, have been visiting friends in town.

We are pleased to report that Harrison Bowis is improving from his recent attack of rheumatism.

Hans Hansen has returned to his home here after spending the winter in B.C.

Miss Birdie Johnson, of Lacombe, spent the week end at her home here.

The Late Mrs Henry Sachs

Citizens of Morningside and in the surrounding districts were shocked last week by the news that Mrs Henry Sachs had passed away at Bow, Washington.

The late Mrs Sachs had been in failing health for about a year, and her physician had advised a trip to the coast. This she took in October last with the hope that her health would be restored.

The exertion of the trip proved almost too much for her, and for a time her health hung in the balance.

But a change for the better took place and she began to improve, and was able to go about, and in letters received by friends a short time ago, she stated that she and Henry proposed going on a farm this spring.

However, this was not to be, as soon after she contracted the flu, and in spite of the best of medical aid and all the loving hands could do, she passed away at the home of her sister.

Before marriage the deceased was Miss Wilcox Garbarth. She was born about 37 years ago at Omaha, Neb., and was married to Henry Sachs in the spring of 1903.

In June of the same year they came to Alberta and took up a homestead at Didsbury, and lived there about eight years, and then came to Pleasant Hill district where they remained until last fall.

It can truly be said that the late Mrs Sachs lived an exemplary Christian life, and was a valued member of the W.M.S. She was a regular attendant of the Presbyterian Church at Morningside.

Glen Fallow & Vicinity.

April 17th.

We are still sickling, and the
farmers are at their wit's end
for feed. Some are shovelling snow
out of the sloughs and feeding
gain.

Glen Fallow school expects to
start again April 20th.

Geo. Clark made a trip to the
saw mill last Tuesday after lumber
for the school barn.

A. Maki has purchased 160 acres
of P.R. land near his place.

Johnny Haring has been busy
digging his well deeper.

It is said that Earl Clark has
leased the old Macleod farm and
intends to farm. What does this
mean?

Charlie Dean has been selling
hay at \$25 per ton in the stack,
the demand exceeding the supply.

Milton Chapin, C. S. Chapin and
family spent Easter Sunday at the
Frank Nejedley home. All enjoyed
a sumptuous dinner and a good
time.

The Chappell sale went good
considering the stormy day and a
cash sale.

Joe Brolick was on the Ponoka
market with a load of fat hogs
recently.

The Ladies' Institute held their
last meeting at the Alf. Unland
home.

Mr. and Mrs. Fred Carter and
children, Mrs. Georgina Carter, of
Detroit, Michigan, and Mr. Archer
spent last Sunday at the Chapin
home.

R. L. Fleming purchased a nice
cow and calf from the Haring Bros
last Thursday.

A CHESTNUT.

Here is a real chestnut. It has been
printed in about fifty papers. Read it
just to see what a chestnut is like.

A certain customer upon receiving a
request to send a cheque to cover his
bill, sent the following letter to a pro-
minent New York firm:

"For the following reasons I am un-
able to send you the cheque asked
for:

"I have been held up, held down,
slandered, walked on, sat on, flat-
tered out and squeezed. First by the
United States government for Federal
War Tax, Excess Profit Tax, Liberty
Loan Bonds, Third Stamp, Capital
Stock Tax, Merchant's License and
Anti-Trust, and by every society and
organization that the inventive mind
of man can invent to extract what I
may or may not possess.

"I have been selected by the Society
of John the Baptist, the G.A.R., The
Women's Relief, The Navy League,
The Red Cross, The Black Cross So-
ciety, The Y.M.C.A., The Y.W.C.A.,
The Red Scouts, The Jewish Relief
Committee and Salvation Army.

"The Government has so governed
my business that I don't know who
am, where I am, or why I am here.

"All I know is I am supposed to be an
inexhaustible supply of money for
every known need, desire or hope of
the human race, and because I will not
sell all I have, and go out and beg, bor-
row or steal money to give away, I
have been cursed, distressed, toyed
with, talked about, lied about,
slandered, up, hung up, robbed and nearly
ruined, and the only reason I am cling-
ing to life is to see what in the hell is
coming next."

CHURCH NEWS

Baptist Church services every
2nd Sunday in the month—Evening
at 7 p.m.; church service at 10 p.m.

Priest-in-Charge

X-RAY A MODERN
DIAGNOSIS METHOD

The routine use of the X-ray in the
diagnosis of internal diseases such as
cancer of the stomach, tuberculosis of
the lungs, etc., has now come to be re-
cognized as one of the most important.

An interesting fact is given where
1110 afflicted men for the U.S. overseas
service at one point were examined
for chest disease. In 24 per cent. of
these 1110 men the physical examina-
tion failed to reveal a disfiguring
chest disease, but in each of these the
X-ray had clearly demonstrated the
ailment. The X-ray, it will be seen,
is sufficient in itself to diagnose the
presence of tuberculosis or other such
disease in the human body.

Overland

How Canada Smooths Rough Roads

THIS new Overland is built to travel smoothly over rough roads with a comfort never before possible in a light car.

Its Triple Springs protect the car from road jolts, prevent mechanical parts for longer wear and more—

They remove the strain and nervous tension from those who drive this car and those who ride in it.

Its unusual economy which results from light weight is as remarkable as its riding qualities.
